SEMINAR DESCRIPTION

New and seasoned managers alike need a broad perspective to effectively deal with the complex challenges they face daily. To develop and promote this skill, this one-day seminar presents many of the tools and techniques found in quality MBA programs today. Specifically, participants will examine how basic business processes drive financial results, learn how effective risk management can improve business planning and decision making, and explore how financial and non-financial measures to best be used to evaluate operating results. Frontline managers also will learn what e-business really means for their own unique operating environment.
