VIRTUAL SESSION (3-HOUR)

WIRED TO RESIST: LEVERAGING BRAIN SCIENCE FOR SUCCESSFUL CHANGE

The pace of today's change is pushing the limits of even the most nimble organizations. Change occurs in a myriad of ways from shifting technology to reorganizing functions to seeking new customers and operating globally. And no matter the size, every change requires new learning. Recent discoveries in neuroscience illuminate how we learn and respond to change and ways we can maximize both flexibility and resilience.

In this program, Dr. Britt Andreatta will share the latest discoveries about the brain and how to harness human biology to reduce resistance to change and change fatigue. The author of several best-selling books, including *Wired to Resist* and *Wired to Become*, she will provide key principles for maximizing the brain's capacity to learn and embrace change. Leave this interactive session with new strategies for intentionally building the professional capacity of people across all functions of your organization.

DR. BRITT ANDREATTA

Dr. Britt Andreatta is an internationally recognized thought leader who creates science-based solutions for today's challenges. Britt is the CEO of Brain Aware Training and former Chief Learning Officer for Lynda.com (now LinkedIn Learning). Britt's industry accolades include being named a Top 10 Influencer in Learning for 2022, and in 2021, she was a Top 20 Learning Influencer and a Top 20 HR Influencer for Leadership Development.
